- + Flexible Delivery Systems
- + Proactive Customer Service
- + ITAR Registered
- + 3D Spring Design Capabilities

= TOTAL CUSTOMER SATISFACTION

The Award-Winning Fox Valley Spring Company is located in the Greenville Industrial Park, just outside Appleton, Wisconsin, USA. Our state-of-the-art facility was constructed in 1994, and expanded in 1997, and then we expanded again in 2011 an additional 28,000 square feet to make our total capacity 53,000 feet. We encourage you to come visit our plant!

Service

Customer Service Team

We assign a knowledgeable customer service person to each customer. This personal touch helps strengthen the vital relationship between our customers and production. We will respond to your questions promptly and service you the way you want to be serviced, including 24 hour or less turnaround on most quotes! quotes@foxvalleyspring.com

\$45.00/10 Piece Minimum Order

We have one of the lowest custom minimum orders in our entire industry. We don't shy away from the small orders because all customers are important to us. Call us with your prototype and short-run needs!

Supply Partners

Through strategic partnerships, we are able to supply a wide variety of quality specialty spring products. These include wave washers, Bellevilles, die springs, stampings, spiral torsion and large wire diameter springs. Our partner's support allows us to be your single source!

Wisconsin Manufacturer of the Year Award Winner

Specific areas of excellence cited by the award committee included our e-business strategy, employee development programs and innovative design and partnering programs. The prestigious Grand Award is the state's highest honor for manufacturers. Visit www.foxvalleyspring.com for more information.

Quality

Experienced Craftsmen

We pride ourselves on our expert craftsmen, capable of manufacturing almost anything that you can visualize. Our dedication to continuous improvement includes on-going training and expanding into new manufacturing technologies.

ISO 9001 Certified Quality System

Our quality system is certified to the ISO 9001 standard. This encompasses our entire operation ensuring a consistent level of quality in production. A key component of this system is the utilization of Statistical Process Control (SPC) on every production order.

Documentation

We are happy to provide material certifications, first article inspection sheets, PPAPs, SPC documentation, or any custom documentation you may require. We also have a fully documented Quality Manual, which is available for your review.

Digital Quality Tests

In a further example of our commitment to quality, we dimensionally and physically test each spring product before it leaves our plant. Our digital testers are accurate to .0001" and represent the latest technology.

Technology

Design Service

Our experienced spring designers will analyze your spring and calculate its rates, loads, tolerances, anticipated cycle life and stress ratios to ensure the best design option. We encourage you to use this valuable service, as we could improve your spring *and* save you money.

CNC Coilers

Using our state-of-the-art CNC spring coilers, we can deliver precision spring products, while ensuring the highest levels of quality production and efficiency during our manufacturing process.

JIT Delivery System

If you can forecast your needs, we can save you money. Our inventory and computer systems are organized to coordinate our shipments to your schedules. We are willing to warehouse customer parts on blanket orders up to 1 year.

CAD System

As a service to our customers, we offer CAD drawings and data files. We can fax you a drawing or send it electronically.

Pre-engineered Spring Designs

We were the first spring manufacturer to have a fully searchable catalog available on the internet. We are committed to this exciting new technology and are constantly updating this informative site. Come visit us at www.foxvalleyspring.com.
